- 25X1 5. Lucko Airport: The Lucko Airport is divided into two zones: one for military and one for civilian aviation. [redacted] in the military zone of this airport there were deployed 52 aircraft of the "Stormovic" and "Yak" types.
- 25X1 6. Zitnjak (near Velika Gorica) Airport: A hangar is being built at this airport. This airfield is protected by a barbed wire fence.
7. Konavlje Dubrovnik Airport: Some wooden sheds are being constructed at the margins of this airport. Thus far six of these sheds have been completed. It is believed that eight more sheds will be built.
8. Seaplane Base: An airport for seaplanes is under construction on the Danube. Another similar base is being constructed in the neighborhood of the Nova Pazova airfield on the Danube, between Nova Pazova and Batajnica. The building of this airport was begun about two years ago. There are about 3,000 German prisoners, 2,000 men condemned to forced labor, and about 100 Yugoslav technicians who are employed in the building of this airport. A railway line has been built between Nova Pazova and the base for the transportation of necessary materials. When the base will be completed, this railway line will be used for transporting passengers between the two localities. (See attached Sketch).

D. Industrial Information:

- 25X1 9. Rakovica Factory: Large quantities of materials for the manufacture of spare parts for airplane engines arrived recently at the Rakovica factory from abroad. Materials of a similar type also arrived at the Ikacus and Smaji plants. [redacted]
